Introduction

DATRAN Trending version 5.01 is now available.

DATRAN Trending version 5.01 is a minor release which includes all of the fixes and enhancements since the last major release of DATRAN Trending, version 5.00 in August 2011.

The upgrade comes with a user friendly Setup Wizard to help simplify installation. Please forward a copy of this document to your IT/IS provider.

QTech strongly recommend that all systems are updated to this current release.

The following sections of this document describe the installation procedure and all of the enhancements and fixes.

Your feedback on the product and possible future enhancements is always appreciated. Please contact QTech on +64 3 366 3713, or email to techsupport@qtech.co.nz.

Prerequisites for Upgrade

Prior to upgrading to DATRAN Trending there are a number of points to note and consider.

- **DATRAN Trending Installation**
This is a full installation and not a patch. Therefore, there are no minimum versions of DATRAN Trending as a prerequisite.
No additional licensing requirements are applicable to existing users.
This upgrade needs to be performed on every machine that uses DATRAN Trending, including Terminal Servers if used.
- **Close Applications**
Before installing, please ensure that all DATRAN programs are stopped. It is also recommended that you close all other applications running on the target machine.
- **Base Station Reboot**
Rebooting of the target machine or base station is not required after the installation.
- **Compatibility**
Ensure your DATRAN VI system has the latest software installed, we recommend DATRAN VI version 6.66 SP2.
- **Monitor Display Resolution**
DATRAN Trending v5.01 has been developed for a 1280x1024 screen resolution.
For optimum performance and display area we recommend that 1280x1024 screen resolution is used.

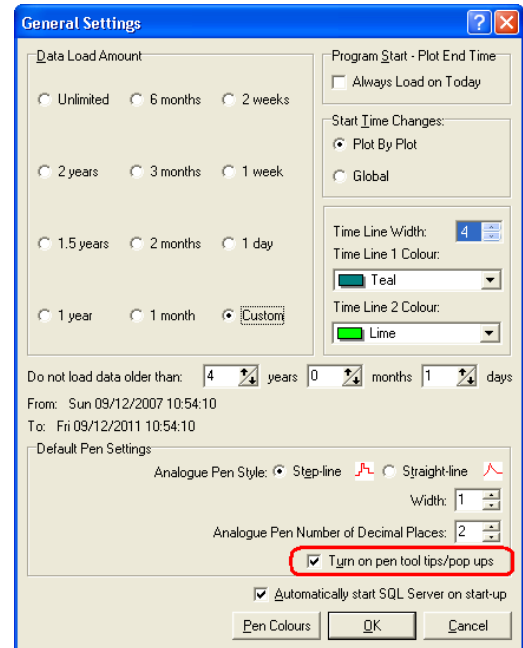

Summary of New Features

- **Tool Tips & pop ups - Improvement**

Tool tips was introduced to help novice/infrequent users and provide you with extra help.

We have taken this opportunity to both improvements to the way tool tips are shown and given expert users the ability to turn the tips off.

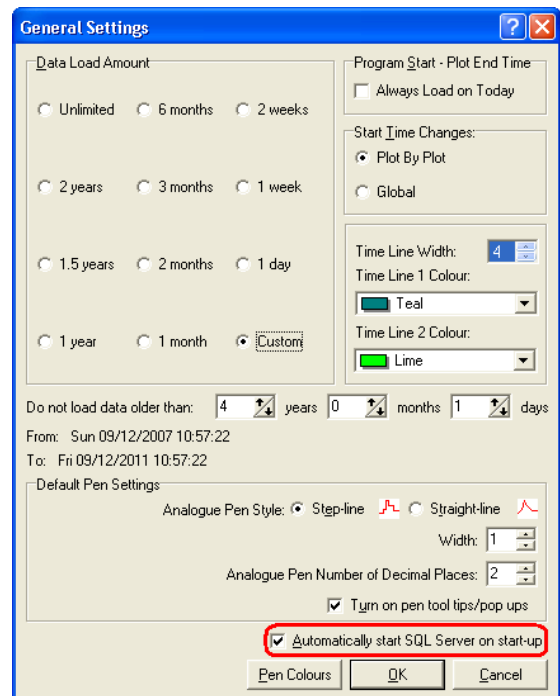

Now you can turn off the pen tool tip if you do not require this feature. Go to the main menu and select Options -> General Settings. Untick in the “Turn on pen tool tips/pop ups” check box and click OK.

- **Automatic start up of SQL Server**

If your DATRAN Trending is running on the same computer as the SQL Server where DATRAN database is located, you can turn on this feature by going to the main menu and selecting Options -> General Settings. Tick the “Automatically start SQL Server on start-up” check box and click OK.

The default is unchecked, so most user will not need to take any action.

Installation Procedure

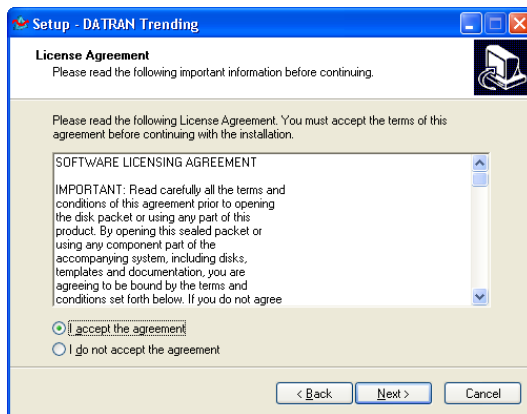

The upgrade is available for all SMA holders from the QTech website.
The file size is approximately 4MB.

To upgrade DATRAN Trending, double click the .exe file and follow the steps as outlined below.

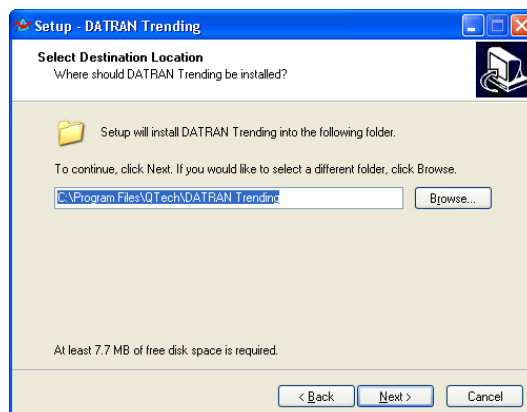

This is the Welcome screen, click **Next**.

Pressing **Cancel** will exit the installation and leave the system unaffected and unchanged.

This is the software license screen. Please read all of the terms and conditions and if you agree click **I accept the agreement** and then click **Next**, otherwise click **Back**.

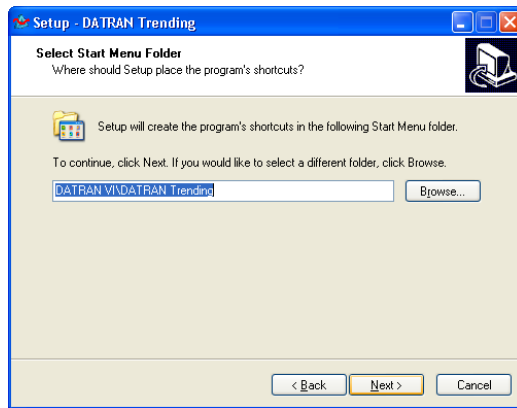

Pressing **Cancel** will exit the installation and leave the system unaffected and unchanged.

This is the location screen. Click **Next** to accept the default (recommended) location.

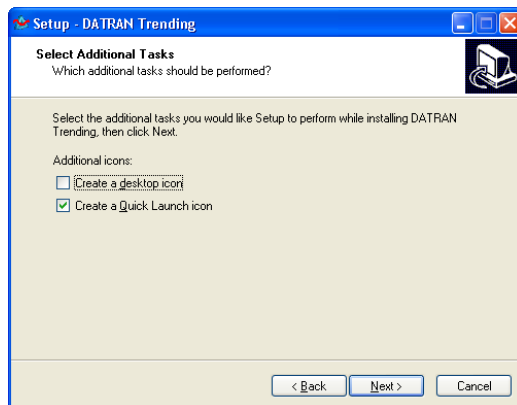

If you wish to change the location click **Browse**.

Pressing **Cancel** will exit the installation and leave the system unaffected and unchanged.

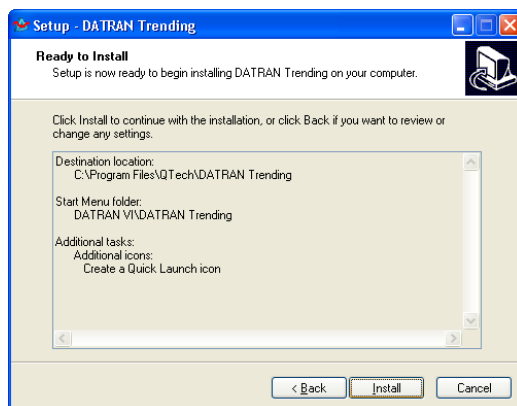

This is the start menu folder screen. To create a shortcut in the default location (recommended) click **Next**. If you wish to change the location click **Browse**.

Pressing **Cancel** will exit the installation and leave the system unaffected and unchanged.

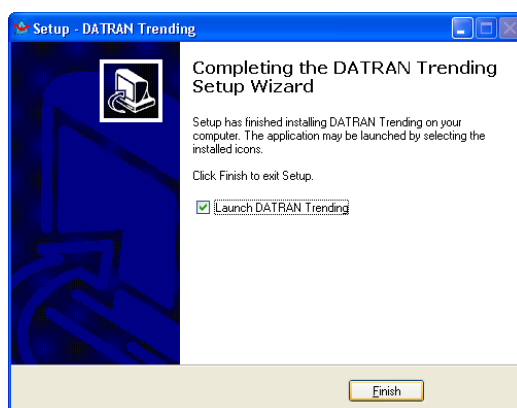

This is the additional task screen. To create a desktop icon check the box and click **Next**.

Pressing **Cancel** will exit the installation and leave the system unaffected or changed.

This is the install screen. To start installation click **Next**.

Pressing **Cancel** will exit the installation and leave the system unaffected and unchanged.

This is the completion screen. For the installation to be complete click **Finish**.

The installation is now complete and DATRAN Trending can be launched.

Summary of Issues Resolved

The following issues have been resolved since DATRAN Trending version 5.00 in February 2010, and are all contained on this upgrade.
