## Introduction

QTech are delighted to release DATAHost V1.3.

This release corrects a number of issues plus adds new capabilities. QTech recommends that all existing users of DATAHost upgrade to version 1.3.

The following sections of this document describe the enhancements and the installation prerequisites.

Your feedback on the product and possible future enhancements is always appreciated.

Please contact QTech on +64 3 366 3713, or email to [techsupport@qtech.co.nz](mailto:techsupport@qtech.co.nz).

## Prerequisites for Upgrade

This version replaces all previous versions of DATAHost.

- [Backward Compatibility](#)

This is a full release version and replaces all existing versions.

Reports built with previous versions are still available and can be used with the new version.

- [Software Licensing](#)

No additional licensing is required for registered users.

- [Close Applications](#)

Before installing it is recommended that you close all applications running on the target machine.

- [PC Reboot](#)

No rebooting of the target machine is required after the installation.
