Introduction

QTech are delighted to release DATRAN DLP IDE V4.03.

This release corrects a number of issues plus adds new capabilities. QTech recommends that all existing users of DATRAN DLP IDE upgrade to version 4.03.

The following sections of this document describe the enhancements and the installation prerequisites.

Your feedback on the product and possible future enhancements is always appreciated.

Please contact QTech on +64 3 366 3713, or email to techsupport@qtech.co.nz.

Prerequisites for Upgrade

This version replaces all previous versions of DATRAN DLP IDE.

- [Backward Compatibility](#)

This is a full release version and replaces all existing versions.

Reports built with previous versions are still available and can be used with the new version.

- [Software Licensing](#)

No additional licensing is required for registered users.

Multiple user licenses are available as required. The Client install allows existing reports to be run and scheduled, this can be installed on multiple machines. The Report designer is a licensed application to a defined machine.

- [Close Applications](#)

Before installing it is recommended that you close all applications running on the target machine.

- [PC Reboot](#)

No rebooting of the target machine is required after the installation.

Summary of New Features

The following new features have been introduced into DATRAN DLP IDE V4.03.

QTech ID	Category	Description
6635	ASM Editor	New Date/time variables of UTCHOUR, UTCDATE, UTCDOW, UTCMONTH, and UTCYEAR added
